

ARCHEOMATICA

INTERNATIONAL

MEDIA PLANNER 2019

Archeomatica is a multidisciplinary journal, printed in Italy, dedicated to the presentation and dissemination of advanced methodologies, emerging technologies and techniques for knowledge, documentation, preservation, conservation and enhancement of cultural heritage. The magazine is organized into three sections subject peer reviewed, Documentation (Investigation and Documentation), Revelations (analysis, diagnostics and monitoring) and Restoration (Materials and intervention techniques), supplemented by sections devoted to topics details such as the Museums, Research Laboratories and Universities, the International Information in European Union and the World, and the combination of Art and Science.

Archeomatica is Open Access, providing free access to its contents, with the aim to make available the research in this field to all in order to grant the best exchange of knowledge at the global level.

Articles are available at: <http://mediageo.it/ojs/index.php/archeomatica>
